

## ABOUT US

The LMproject dance company was developed in the summer of 2005 by a group of dancers in New York City who were looking to spread their knowledge of dance and movement to children who were eager to learn how to move.

Since working with The Fairfax Arts Council and The International Children's Festival, LM has broadened their educational programming to schools, festivals, and other organizations. LMproject has performed in schools throughout the East Coast. They are dedicated to bringing their love of the arts to all students, and have used special funding to perform at Title I schools in areas where the students do not have access to live performances. LM highly believes that a strong passion for the performing arts can be appreciated through performance but achieved through participation. They aim to showcase different styles of dance and music while displaying the variety of ways in which these expressions can interact

LMproject was designed to create an outlet for creativity and inspiration through movement, instill a sense of confidence and spread a love for dance and passion of performing through our hands on learning experience.

-Keenan

*"LMproject is much more than just a camp. It is a place where creativity, self-discipline, passion, love and musical theater come together. Each summer is a new experience. The staff is always inventive and looks for ways to improve each individual student. LM gives a taste of Broadway and NYC in your own backyard. I am thankful for the staff, and coming to camp for all these years. **LM isn't camp. It is home.**"*
